

Guidance notes for undergraduate applications

These guidance notes outline how to submit an application for one of the undergraduate programmes offered by the University of London International Programmes.

Have you applied to the University of London International Programmes before?

If you have an application in progress or currently registered for a programme and simply wish to change courses, please contact the admissions office for advice as you may not be required to submit a new application. Our contact information can be found on the following link: <http://www.londoninternational.ac.uk/contact-us>

1. Making your application

Please apply as early as possible and do not wait until the application deadline date. A number of programmes only accept a limited number of new students each year. The latest date by which your application must be received is given in the relevant programme details page on <http://www.londoninternational.ac.uk>.

2. How to use the application form

- A. Click on the Create Account Button.
- B. If you are a returning applicant, enter your email address and password then login. If you have forgotten your password, click on the 'Forgotten password?' link.
- C. Complete the appropriate fields to create your user account. At this point an email will automatically be sent to the email address you have provided so please ensure the email address is correct and accessible. Complete and submit the application and upload your certificates and supporting documents. Your application will only be fully submitted for processing once you have successfully paid your application fee on the 'Payment page' and you see the confirmation page.
- D. If the course that you are applying for has an application fee you will be taken to the payments section of the application process where you will be given the option to pay online using a credit/debit card or offline using one of the alternative payment options as detailed in the following link.

<http://www.londoninternational.ac.uk/applications-admissions/costs/ways-pay>

We recommend that you pay your application fee online as this will ensure that you receive a faster decision on your application.

3. Need help with completing the application?

If you have any further questions about the application process, please complete the enquiry form at the following link <http://www.londoninternational.ac.uk/contact-us>

4. Acknowledgement

When you have submitted your application you will receive confirmation, by email, that your application has been received by the Admissions Office and notification of your student number. We allocate a student number to everyone who applies and it does not mean that you have been accepted onto a programme.

5. How to submit your documents

If you have your documents to hand, we recommend that you upload a scan of the verified copy of your documents as part of your application. For a full list of acceptable verifiers, please see the following link: <http://www.londoninternational.ac.uk/applications-admissions/how-apply/documentary-evidence/postgraduate>.

If you do not have all your documents to hand or if you are waiting to sit an examination or if you are waiting to receive the results of an examination, we recommend that you still submit your application. We can often begin to process your application without all the evidence, although we will not be able to give you a final decision until all the necessary documentation has been received.

After you have submitted your application, you can email scanned copies of verified documents to documents@london.ac.uk. Please ensure that you quote your name and student number within the email.

If you are unable to upload or email your documents, you can print off and complete a copy of this [Document Enclosure Form](#) and send it together with all the required documents by post or courier to **University of London International Programmes, Admissions Office, Stewart House, 32 Russell Square, London WC1B 5DN, UK**. Alternatively you can ask your awarding/examining authority to send the completed form and the relevant statement/transcript of results to the Admissions Office by post or courier to the above address.

Please do not send original documents. If none of the options listed are available to you, please contact the Admissions Office for further guidance at <http://www.londoninternational.ac.uk/contact-us>.

Please upload the following:

A. Personal identification

Evidence of your full name and date of birth as stated on your application. This must be a scan or photocopy of either your birth certificate, or passport, or national identification card (ID). If you have changed your name from that which is on the above document or certificates, you must provide official evidence of the change, e.g. a scan or photocopy of your marriage certificate or statutory declaration.

B. Educational certificates

The verified copies of all the qualifications that you have listed on your application. We do accept verified copies of recent GCE A-level examination result slips i.e. one for which the final certificate(s) has not yet been issued. However, results slips from previous examination sittings cannot be accepted.

C. English Language Proficiency evidence

A verified copy of your certificate/evidence of English Language proficiency in support of the information you have provided on the application form.

D. Work Experience Routes of both the BSc CIS and BSc Creative Computing degrees applications only

You are also required to submit a full employment curriculum vitae (cv) and work reference together with the other documents in support of your application. You will need to contact your chosen referee and arrange the confidential reference to be sent directly to the Admissions Office, at the address given below or alternatively email the reference to documents@london.ac.uk. Please note that references should be on headed paper and require a signature and therefore if the reference is emailed it should be a scanned copy of the original letter.

It is your responsibility to arrange for all the necessary documentation to be obtained in support of your application. The University cannot undertake to do this on your behalf. This also applies to any translation of documents which you submit that may be required.
